

FSG Announces **Pam Patten** Field Recruiting, San Antonio

"The electrical trade offers a great job with a real future. Believe me. The opportunity is there for you."
- Pam Patten

FSG is thrilled to announce the addition of Pam Patten as our new HR Regional Field Recruiter, based out of San Antonio. She will support operations in El Paso, Corpus Christi, West Texas, Harlingen, and Propel Prefab in San Antonio. Pam will report to Juan Villarreal, FSG's HR Director of Field Recruiting.

Pam is a Master Electrician and a veteran of the US Air Force. She has been with FSG since May of 2020 as the Electrical Prefab Manager at Propel Prefab. Her electrical career began with residential work in North Dakota and developed to include commercial work here in Texas.

For six years, Pam served as an instructor for two different apprenticeship programs, so she brings a unique perspective on the needs and wants of people just getting started in the trade. In her free time she enjoys hiking, backpacking and DIY projects at home.

Please join me in welcoming Pam to her newest position with FSG, as she continues helping build FSG to be The Best Electrical Institution in the industry.

For questions about this announcement contact FSG's HR Department or Corporate Communications Team.
